

Games, Apps, CDs and DVDs

These rates cover audio, audio visual or interactive productions for sale or rental to the general public, including:

- Films or games
- Online/mobile apps
- DVD, CD and vinyl products
- Covermount products

Our 'Mobile App' rates license music which is installed within an app. This rate does not cover productions which are created and uploaded onto 3rd party services such as Snapchat, Youtube or Facebook for example. Please refer to our online content guide on [page 3](#) to see which rates apply to this type of content.

Notes:

- Retail game rates includes any console or PC game e.g. Playstation, Xbox etc. Virtual Reality experiences also covered under these rates.
- If you are not licensing music within an app and require retail online exploitation (covering streaming and downloads), please refer to our [Online Production](#) rates.
- Looped and interactive use of music allow unlimited looping of a single cue in a production and is charged at double the Per 30s. This option is available across all usages where no Per Track rates are offered. Just select the looped option on the [Licence Manager](#) system.
- Per Game rates allow uncapped music usage for one flat rate.
- Aggregation is permitted on all Per 30s rates. Aggregation allows various music cues to be added together to produce a cumulative total.
- Speech translations do not require additional licensing.
- Please read the Important Information section at the end of this rate card.

If you can't find a rate that fits your production, please get in touch.

Games, Apps, CDs and DVDs
